

SV-88/SV-88P

HD IP Camera Coaxial-LAN Converter

Features

- Use current coaxial cable to install IP cameras, no need new cabling, easy for system upgrade
- Super long distance up to 2000 meter, longer than Cat5 cable which is just 100 meter.
- 20 channels mixed with HD-Video, audio and alarm could be transmitted over one coaxial cable
- No need setting and adjusting, plug and play for easy installation and use.

Technical Specifications

Model	SV-88/SV-88P	Working temperature	-20 ° C ~50 ° C
Power	DC12V	Working humidity	20% -90% No condensation
Consumption	1.6W	Size	110*65*20mm(L*W*H)
interface	BNC*1,RJ45*1	Weight	60g

Connection diagram

Analog system upgrade to HD IP system No need new cabling
