

# 350W LED Pan &Tilt SearchLights

## Overview

- Mainly used in national defense, military departments, as well as large prisons, border guards, sea guards, airports and other places or deserts, Gobi and other harsh environments. It is also suitable to be installed on military vehicles to realize mobile searchlight, used to prevent drones or guide helicopters to land.
- The product adopts professional grade heavy duty turbine worm gear head, which is sturdy, reliable and resistant to strong wind.

## Technical parameters

Model	SVN-PTLED350W
Rated power	350W
Rated voltage	220VAC
Light source specifications	Osram LED7000K
Lamp Bead Life	Approx. 70,000 hours
Color temperature	Approx. 7000K
Brightness	Approx. 32,000 LM
Beam angle	Approx. 3°
Irradiation distance	Approx. 2500M-3000M
Pan &Tilt Specifications	Heavy Duty Worm Gear Pan &Tilt
Pan &Tilt angle	Horizontal: 355°, vertical: ±60°, With mechanical limit
Pan &Tilt speed	Infinitely adjustable speed
Control method	Keypad control, software control, programmed control
Communication interface	RS485 (optional network communication)
Pan &Tilt Functions	Preset Position, Guard Position, Cruise, Line Scanning
Protection class	IP65
Housing Material	Aluminum electrostatic spraying treatment
Housing Color	7035gray
Volume	40cm*33cm*69cm
Weight	28KG
